

REDUCE YOUR RISK OF VIRAL INFECTION

LBA has implemented the following preventative measures

- Regular cleaning and disinfecting of all high-touch surfaces, particularly during high traffic times
- Nightly deep cleaning and disinfecting of common areas
- Hand sanitizing stations located in high traffic areas

We encourage you to take your own precautions

- Wash your hands frequently with soap and water for at least 20 seconds.
- Avoid touching your eyes, nose, or mouth with unwashed hands.
- Avoid close contact with people who are ill.
- Cover your coughs and sneezes with a tissue or sleeve, not your hand.
